- Software Developer

F ormally, I am a web developer from Noida trying to contribute something in this technical world of ours and Informally, I am just trying to be a guy with a good heart ❤.

EDUCATION

Bachelors of Technology, Computer Science and Engineering, Amity University, GPA: 7.76/10.00   **July 2019 — June 2023**
High School, Fortune World School, GPA: 7.4/10.00   **April 2018 — May 2019**

PROJECTS

Personal Portfolio Website
- While learning Web Development, I made a website for myself from scratch so that you can see my details.
- Also I made backend using Node.js and MongoDB as database to make the necessary changes.
- The project is live on heroku. You can see the project by clicking here

Event Listing Application
- I made this application while practicing MERN stack development
- You can list all your events in this application by making an account and then logging in.
- This application is also live on heroku. Link for the same: https://listing-event.herokuapp.com/

To Do list
- I made this project using HTML, CSS, JavaScript while I was completing my Web Development Bootcamp.

Simple Calculator
- This project was made using express.js, HTML, CSS, JavaScript. I made this while I was completing my Web Development Bootcamp.

EXPERIENCE

Web Developer (Intern)   **10/2021 — 11/2021**
Suvidha Foundation   Nagpur
- I was assigned to make the backend for the Website with another person from scratch.

Web Developer (Intern)   **05/2022 — Present**
Alignz Exports   Noida
- I am working as a Node.Js developer and my main task is to fix bugs.
- Since, I know a bit of Frontend developer, I also contributed in fixing bugs in frontend.

SKILLS

MERN Stack
Git
Python
Flutter
FireBase
PostgreSQL
